

Maya Ubud Resort

The Maya Ubud Resort is beautifully located within Bali's rice fields and close to all sights in Ubud. The Resort features several nicely decorated restaurants, bars and lounges, two well designed pools overlooking the jungle and the nearby river, 24-hour internet access free of charge and one of Asia's best Spas. Most guests will stay in one of the Villas, which are nicely integrated in the landscape. Superior and Deluxe Rooms are located in two 3-storey high buildings. Rooms feature a mixture of Balinese and modern design elements.

The service of all staff is more than helpful, professional and excellent. As our travel package included half-board we had buffet breakfast in the mornings, and a gourmet-style 3-5 course set menu in the evenings. The Maya Ubud Resort nowadays seems to be more affordable for a wider audience. While most guests are travelling as couples, many on honeymoon, families with children can also be found. The Asian market seems to generate most guests, while others are from Australia, France and Germany. Altogether the Maya Ubud Resort surely is one of the best in Bali!
